

Events

All throughout the year, INSEP organises a number of events related to its expertise in training and reconversion (in particular, conferences on the culture of sport, SporTalents crossroads and Start'Up reconversion), research (Sleep day and performance seminars) and sports medicine (Healthcare day and the ECOSEP international congress). Each year, INSEP organises two events to celebrate the achievements of athletes:

- the graduation ceremony
- the Champions reception.

INSEP also offers its private partners the possibility of organising events in the spaces in which the elite athletes live and train. Furthermore, INSEP opens its doors to the public on the day of the Fête du Sport. Renowned sports competitions are also occasionally held at INSEP, including:

- Matches in the French Nationale 1 basketball league
- The French Championship for the elite modern pentathlon
- Water polo games
- The French national school sports union, UNSS
